Vesuvius Robotic Casting Technology

# Robot technology for continuous casting operation

The safety step forward in continuous operation

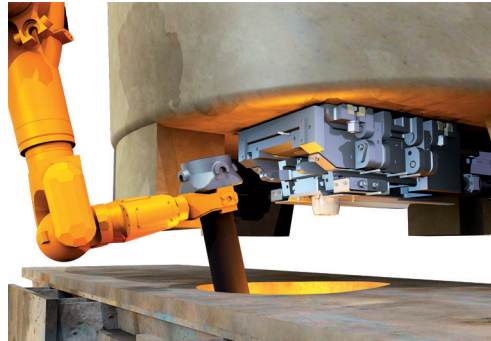

## Robot ready flow control devices

Flow control devices and refractory consumables are tailor made for robotic operation  
LTC (Ladle Tube Changer), LSH (Ladle Shroud Holder), SEM3085 (Tundish Tube Changer)

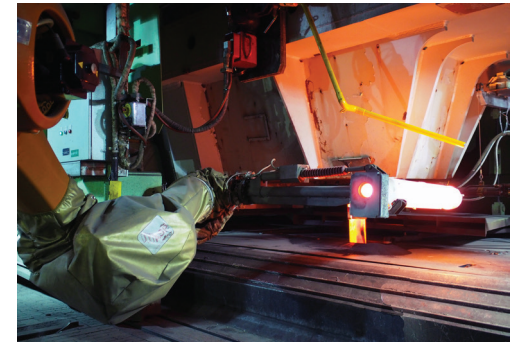

*Fully automated oxygen lancing of ladle casting channel*

*Robotized operation with ladle tube changer*

*Robotized operation in ladle preparation area*

*Fully automatic tube change for stopper or tundish slide gate*
